

From **PANDJIRIS®**

## Mini Pro® Weld Lathe

MADE IN U.S.A.

**PANDJIRIS®**  
#1 in Fixed Welding Automation

## INCLUDES:

### Mini Pro® Positioner with

- 8" chuck
- Variable Speed Range of 0.65 to 13 RPM
- 350 Pound Load Capacity
- 8.25" Swing Radius
- 2.5" Spindle Hole
- Speed and Direction Control  
Mounted to Positioner
- 300 Amp Welding Ground
- On/Off Foot Switch

### Tailstock with

- Live Center (No. 2 Morse Taper)
- Filter/Regulator/Lubricator
- Locking Slide Base to Accommodate  
1" to 24" Part Lengths
- Pneumatic Clamping Cylinder
- Convenient Operator Control of  
Pneumatic Clamp
- 350 Pounds Capacity
- Optional Outboard Support Stand  
Available on Slide Base

### Torch Support with

- Locking Slide Base
- Vertical Rack and Pinion Adjuster
- Impingement Swivel
- Over Center Adjustment
- Lead/Lag Adjustment
- Dovetail Slides for Vertical and Cross Seam Adjustment

### Machine Base:

- Aluminum Extrusion

### Available Options:

- Variable Speed Foot Switch
- 500 Amp Welding Ground
- Slow Speed Range
- Outboard Stand
- Weld Start/Stop Integration (Auto Rotation)
